Summary

As a Computer Science student with a background in the Pakistan Air Force (PAF), I bring a unique blend of technical expertise and real-world experience. Proficient in TypeScript, Python, Data Science, Next.js, and MS Office, I am dedicated to ensuring customer satisfaction through effective communication, time management, and leadership. My career goal is to venture into entrepreneurship within the technical field, leveraging my skills to bring innovative products to the market.

Licenses & Certifications

 **Prompt Engineering - IBM**
